WORLD OF RADIO HITLIST

Hi Glenn, My latest Hitlist update April 14:
https://www.w4uvh.net/hitlist.htm

1) ~Aggregator - World Radio Network: Updated links to navigate to new A26 schedules (Thx to Glenn Hauser in WOR iog mail list)
2) France - R France Int: Updated link to navigate to new A26 schedules
3) Germany - Deutsche Welle: Updated link to navigate to new A26 schedules
4) New Zealand - RNZPac & RNZ Nat: Updated links to live streams

The next update is scheduled for late May. Best wishes and 73, Alan Roe

** ARGENTINA [non]. 9455, Fri Apr 10 at 2300, WRMI cuts into RAE music, multiling IDs, and English! again instead of sked Portuguese; VG S9+30 signal into Georgia SDR but bothered at first by OTHR clickery. Informal announcer introduces something from YouTube held over from yesterday due to lack of time, ``World Wonders`` about the Guaraní vs Jesuits; narrator sounds like David Attenborough? and he constantly stresses ``Guaráni``. 2314 another multiling ID, next topic 2315 about sailing on rivers. Not listened further until 2357 recheck, now in Portuguese, for how long? (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Mon Apr 13 at 2304, WRMI S9+40 ending song ``Duerme, Negrito``. 2305 RAE multilingual ID. Lyrix and background: https://genius.com/Mercedes-sosa-duerme-negrito-live-lyrics (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Apr 14 at 2305 tune-in to WRMI dead air, 2306 cuts on Spanish, R. Nacional S9+35 with fútbol (Glenn Hauser, OK, WOR)

** BRAZIL. 28500 USB, April 13 at 2207, PV8AL calling QRZ, CQ 10 in English; briefly CCI from another PY, then working NY. QRZ.com: ``PV8AL Brazil flag Brazil, HÉLIO DE OLIVEIRA ALVES, POBOX 181, BOA VISTA, RR 69301970, Brazil`` with lots of antenna photos and his wife climbing a tower (Glenn Hauser, OK, WOR)

** BRAZIL. 28500 USB, Apr 15 at 2210, PV8AL, Hélio, contacting North Carolina in English, QRZ. QRZ.com: ``PV8AL Brazil flag Brazil, HÉLIO DE OLIVEIRA ALVES, POBOX 181, BOA VISTA, RR 69301970, Brazil``. OOFSOB along with an LU much weaker on 28483 USB (Glenn Hauser, OK, WOR)

** BRAZIL. 21290 USB, Apr 15 at 2217, PY6RT making quick contacts, several in a row without every uttering his own call, including KC4HGS, KF4PPH and a 6Y5; bye bye. QRZ.com: ``PY6RT Brazil flag Brazil, Roberto "BETO" Tourinho - BETO, P. Box 277 - Caixa Postal 277, Feira De Santana, BA 44001970, Brazil`` (Glenn Hauser, OK, WOR)

** BULGARIA. 5890, Apr 12 at 0154, Persian?, S9/+10, presumably Iran International TV; unseemed on 5890.3, nor any spurs detectable +/- 19 kHz, tho a JBA carrier on 5910 presumably Colombia (Glenn Hauser, OK, WOR)

** BULGARIA [and non]. 5900, Apr 12 at 0212, TOMBS S9+10, not // 5920 WTWW which tonight has big humroar unlike 5085 (Glenn Hauser, OK, WOR)

** CHINA. 11760, Apr 13 at 2221, Chinese music S8/S9 wtih flutter and Doppler flutter, certainly not RHC, but CRI ``Portuguese`` = fill

music via Xianyang 59 site; not however hearing the CRI ``Portuguese`` via Cuba on 13650 at 2307 (Glenn Hauser, OK, WOR)

** CUBA. 5025, Apr 12 at 0129, no signal from Rebelde, nor at 0153 any RHC or CRI relay frequencies, so another apagón? However, by 0205, 5025 is back on at S9+20 and then find RHC too: at 0210, 9710 is in Portuguese - not Brazuguese S9+30/40 // much softer and howlier 11760 tho reading S9+30. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9710, Apr 12 at 0638, S8 of dead air from RHC, but traces of understation, presumably Vatican in Ukrainian Sundays only (Glenn Hauser, OK, WOR)

** CUBA. 11880, Apr 13 at 1915, RHC English not dead or offair, better than 15140; 11760 not on. At 2221, 11880 is S9+10 of dead air, still 2307 S9+30 while 11760 now on with S9+20/30 of DA plus windhowl. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13650, Apr 14 at 2345, S6/S7 of dead air - or rather just barely modulation, Chinese music fill in CRI `Portuguese` relay (Glenn Hauser, OK, WOR)

** CHILE. 28450 USB, Apr 13 at 2217, CE7VP. QRZ.com: ``CE7VP Chile flag Chile, Javier "Javi" Capdebilla A., P.O. Box : 42, Quellon, Chiloe Island, 5790000, Chile`` (Glenn Hauser, OK, WOR)

** CHILE. 28460 USB, Apr 13 at 2218, CA3PHX, Mauricio calling CQDX, working an NH7? in Hawaii. Was hard to understand swallowed fonetik for H, hotel. QRZ.com: ``CA3PHX Chile flag Chile, Mauricio "Mauro" Pacheco, La Florida, santiago chile, +56984082037, Chile`` (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 13600, Apr 12 at 0207, talk about China and Amerika in S Asian language: CRI Tamil via Kashgar (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 17560, Apr 15 at 1339 M&W discussion about Africa, Communist party, in French, S6/S4, and // 17650 S5/S7: Both are CRI via Kashgar; as is Chinese S5/S7 on 17735, the OSOB = only signals on band (Glenn Hauser, OK, WOR)

** FRANCE. 13735-13740-13745, Apr 13 at 2227, DRM noise at S9; EiBi shows TDF in French to EAf, irr. at 22-23. See also unID 9565 (Glenn Hauser, OK, WOR)

** IRAN [non]. 15750.3, April 13 at 2202, open carrier vs bubble jamming, presumably remnant of Iran International TV via BULGARIA on signature shifted frequency (Glenn Hauser, OK, WOR)

** JAPAN. 11800, Apr 11 at 1400, now the only English time and frequency for NHK World R. Japan, and 11815 now in Japanese. Both are too weak to be usable, but 11815 is slightly stronger, S6 vs S4 for 11800, why? HFCC shows both 300 kW, 11815 at 235 degrees, 11800 at 240, both aimed away from us (Glenn Hauser, OK, WOR)

** KOREA SOUTH [non]. 15770, Sun Apr 12 at 2307, KBSWR in English via WRN via WRMI, talking about Seoul, S9/+10 direct; sked 2300-2330 daily (Glenn Hauser, OK, WOR)

** MALI. 5995, Apr 11 circa 0630, no signal from ORTM. Wolfgang Bueschel says power cuts in Bamako are the cause of this and 9635 day frequency, and scheduled CRI relays all missing again on April 11 (Glenn Hauser, OK, WOR)

** MEXICO. 1060, Apr 13 at 0504, MexNA after `La Hora Nacional`,

followed by XERDO La Raza ID. Tho it had to be this if not R. Educación, glad to get that c/l ID, by SHVA = super-hype voice actor, from Matamoros [``kill the Moors``], Tamaulipas, 7/2.5 kW (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 28505 USB, Apr 13 at 2212, ZL1AU, QSO with Bob, a KB6++. Not positive of call, not fonetik, much weaker than adjacent 28500 BRAZIL, q.v. QRZ.com: ``ZL1AU New Zealand flag New Zealand, Peter Scouse, 17 calluna crescent, totara heights, Manukau City 2105, New Zealand`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. Lots of pirate axion Saturday night, UT Sunday April 12 tuning between 0130 and 0202, up to six stations at once, all playing rockish music of some sort I don`t recognize nor try to ID, nor except for the first one did I catch any announcements, even around hourtop; of course, as pirates they are urged NOT to identify at ToH; but I can rely on HFU`ers to ID most of them:

** NORTH AMERICA. 6959.1 USB, April 12 at 0130, pirate music; and address sounded like GPSshortwave@gmail.com but not at all sure of the first 3 letters. It was off by 0156, but something was on 6960 by 0202, as below. 6959 per HFU is The Crystal Ship: https://www.hfunderground.com/board/index.php/topic,161772.0.html The real op of TCS says it was a recording of his own show more than a dekayear ago, and does not know who is playing it now. But he would QSL this now at TCSshortwave@gmail.com (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, Apr 12 at 0131, pirate music S9+20 and still at 0156. Per HFU it`s WTF Radio Worldwide: https://www.hfunderground.com/board/index.php/topic,161776.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6945 AM, Apr 12 at 0132, pirate music, still at 0156. Per HFU it`s Liquid Radio: https://www.hfunderground.com/board/index.php/topic,161793.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6923 AM, Apr 12 at 0133, pirate music, still at 0157. Per HFU it`s Sternradio: https://www.hfunderground.com/board/index.php/topic,161789.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6850 USB, Apr 12 at 0134, pirate music, still at 0157. Per HFU it`s Radio 48 / MRI, with waterfall images: https://www.hfunderground.com/board/index.php/topic,161769.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6955 USB, Apr 12 at 0155, hard rock pirate music; now that 6959.1 is off. Per HFU it`s Outhouse Radio, with lots of SSTV images: https://www.hfunderground.com/board/index.php/topic,161800.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6960 USB, Apr 12 at 0202, S9+20/40 pirate music. At this minute there are six stations going at once on the pirate band. Per HFU this one is 7 Radio: https://www.hfunderground.com/board/index.php/topic,161801.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7200 LSB, Apr 12 at 0141, hams behaving badly, lots of swearing and naughty words back and forth, but no IDs! (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Apr 13 at 0433, thintonations of Josiah recognizable on anti-Christ pirate, Station YHWH, S8/S9 direct but

with RTTY QRM on plus side (Glenn Hauser, OK, WOR)

** OKLAHOMA. 5140 USB, Wed Apr 15 at 1401 tune-in, weekly emergency net underway, Breanna again NCS as WSHM692. Reception very poor this time but usual rollcall with some replies; recopying all the details of calls I can forego; see previous reports. Most but not all the locations mentioned were Broken Arrow, Durant, Moore, Ponca City, Pontotoc County, Seminole, Stillwater, Tulsa, Leflore County; Jefferson City MO. Closed net at 1409 until next week, then one or two QSOs until 1411 (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. April 9 at 1450 & 1835 UT for example, the traditional 27 MHz Citizens Band, at least and probably above and below it, devoid of signals: i.e. very little CB activity around Enid. When there are pileups of hets and shouting, that must be almost only by skip, primarily sporadic E from hundreds of miles away (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Sat Apr 11 at 1430, REE`s NAm frequency is OFF, and 15390, the Af fq continues to be off. All nominally start at 1400 on weekends. That leaves 17715 for SAm, 15520 for ME, both of which are sufficient S5/S6 here, but it`s a silly ballgame which occupy so much REE time. 15500 still off a few hours later (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Sun Apr 12 at 1427, no signal direct from REE, N American transmitter still OFF, as is 15390 for Africa; only poor-fair on remaining 15520 & 17715; so Noblejas at 50% capacity (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Apr 13 at 1914, REE NAm frequency revived, now in Spanish, also good on 17715 for SAm, 15520 for ME, and still no 15390 for Africa. Same situation direct at 2203 when no English since it`s unWednesday (Glenn Hauser, OK, WOR)

** SPAIN. 15500, 15520, 17715, Wed Apr 15 at 2200, REE VG on all three but no 15390, S9+20/30/40 on 15500, with timesignal and Spanish promo about how to vote-by-mail from abroad for the Andalucía elexion May 17. Finally 2201 opening weekly token English as ``live`` even tho recorded at least 12 hours ago! The usual W&M pair, he with the heavy accent. Previews topix including EU security and defence; whether the great painting Guernica should be allowed to travel due to its condition. 2202.5 news summary starting with Sánchez visited Xi in Beijing; Spain has stopped an agreement with Israel over Lebanon; an image of Netanyahu was burned in Málaga; etc. 2207 report from their Beirut correspondent Elsa Yasbek Charabati, as Ken Zichi spells her. 2227 someone hoping new leader in Hungary will stop blocking EU aid to Ukraine (Glenn Hauser, OK, WOR)

** TAIWAN [non]. 17790, Apr 12 at 0123, RTI via WRMI, S9+20/30 direct and not // 15770, but much stronger than // 5800, two YLs with mailbag show in Spanish, birthday greetings to a number of listeners during the following week, including Jeff White on April 15; but not me! One briefly sang `HBD` in Chinese. Another name recognized, Anatoly Klepov (Glenn Hauser, OK, WOR)

** TURKEY. Replies to my recommending VOT move off 11785 to 11790 or 11795 or 11800, at 22-23 UT:

``Hey Glenn, I was just catching up on WOR reading and saw your information about contacting VOT about the 11785 collision. I was the other listener they referenced as I sent them an email Monday night. I was surprised to have a reply in my inbox on Tuesday morning from the same individual. I hope our contact will help them to move frequency. Regards, Chris`` Campbell, Columbus OH

``Hi Glenn, The interference from Brazil was reported to VOT by me back in May 2025, recommending that they move to 11790. A few other listener reports also mentioned adjacent channel splatter. With 11785 remaining on the VOT schedule for A26, it would appear that this information has not been passed to the team which plans the frequency schedules.

Cemre is forwarding the information to the Emirler station, which is probably pointless. I doubt whether they have anything to do with the schedules. Years ago, I was in regular contact with Ms Sedef Somaltin at the TRT Teknik Yardimcilik in Ankara. She unfortunately transferred to another job in 2009. Any problems with interference from other stations that I reported were quickly resolved by her department.

I really wonder what happens to all the reception reports they get at TRT. Is someone employed to read through all the listener observations and transfer the information to a database for evaluation? I doubt it. QSL's are (sometimes in my case) mailed out as acknowledgement, that's all. As for Ricky Hein, he has had reception problems for a a few years now. He also recently reported to RRI in Romania that he has trouble hearing them, usually giving SINPO's of all 1's. I think he must have a deaf receiver or no suitable antenna. Alan Holder, G4ZBH, Isle of Wight, U.K.`` (via Glenn Hauser, OK, WORLD OF RADIO 2342)

** TURKEY. 11785, Apr 10 at 2200, VOT English S9+20 into Georgia SDR, but ACI from 11780 Brasil even tuned USB. At 2233 I notice she is reciting the complete English schedule, but in disorder, apparently by target area resulting in some times and frequencies mentioned twice when they have more than one target. Music, and same thing played again already at 2239. 2251 multi-lingual ID filler reel. 2253 s/off still mentioning only 1230 on 17620. 2254 IS, 2255 cuts off and on and off and on and finally off to stay before 2256 (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Apr 11 at 2200+ quick check, VOT not off the air but poor signal direct (Glenn Hauser, OK, WOR)

** TURKEY. 11660.004-, Apr 12 at 1640, VOT English in news, S9+25/30 backwards into UTwente; narrowed bandwidth to 5.08 kHz necessary to eliminate het. 1642 the new time-filler of English broadcasts schedule. It`s not in time or frequency order, but by target area, as 11785 is mentioned I think thrice, but seems some known broadcasts not mentioned at all. Will have to copy to analyze in detail. This apparently compensates for lack of full sked info at s/on/off.

1644, `Letterbox` theme starts. Cemre says rain has finally given way to sunshine and some flowers are blooming. Hopes Friday was last day to scrape ice off her windshield! 1) Bryan Baines McGuire?, County Dublin, Ireland, uses 75-year-old Pye radio. 2) Chris Campbell, Columbus OH, says 11785 at 2200 is useless, wasteful, due to Brazil on 11780, report forwarded to Emirler engineers.

3) At 1651: Glenn Hauser, Enid OK USA, also about the 11785 problem, suggestion of move to 11790, 11795 or 11800; also sent on to engineers. ``thanks for decades of listening``. 4) Chris Malbrook?, Port Alberni BC. 5) Siddartha Pattajarjee, W Bengal, is Autism Awareness Day April 2 observed in Turkey? Yes, 400,000 diagnosed with it. 6) Kuznetsov, Riga, Latvia. 7) Anatoly Klepov, Moscow wants another QSL. 8) A--?, Pakistan, listened via remote in Germany. 9) finally, ??, Tampere, Finland heard report about a Turkish olympic runner. 1705 ending, 1706 wishing clear skies, strong signals and good company. 1706 theme, and 1707 `Geoeconomix Diary` about 33% of food produxion going to waste (Glenn Hauser, OK, WOR)

** TURKEY. 11785.007-, Apr 12 at 2221, VOT not off the air, S9+20/40

into UTwente as `Letterbox` repeats calling me. And the next playback Apr 13 at 0321 on 7275.017, S9+30/40 into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Apr 13 at 2200, no signal from VOT direct, nor on recommended 11790, 11795 or 11800. By next check 2220 it`s on but nogood vs Brasil 11780 ACI. No chance to check it into UTwente before 2300, probably OK, but failed to extend as late as 2335 in extraneous German (Glenn Hauser, OK, WOR)

** TURKEY. Here`s Cemre on `Letterbox` Apr 12 with my recommendation to move off 11785; 2 minutes, whole show should repeat Wed/UT Thu: https://www.w4uvh.net/VOT_Letterbox_20260412_Hauser.mp3 (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Apr 14 at 2200 and several further chex in the hour, never any signal from VOT. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Wed Apr 15 at 2159, no signal direct from VOT English; by 2208 is on, but heavy ACI from 11780 Brasil even with USB tuning. At 2223, repeat of Sunday`s `Letterbox` is underway with Chris Campbell`s denunciation of 11785 as useless due to this very QRM we are now hearing, and then at 2226.5, my own agreement and recommendation to move to 11790, 11795 or 11800 which are still absolutely vacant! Did not listen to the olds, but I wonder if VOT dared to report the school shootings there (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2342 monitoring: UT Sat April 11 at 0300 on WTWW 5085: altho it did air, George says something was wrong with the audio, extremely bassy, so is going to try again UT Sunday April 12 at 0300 on 5085! And 5085 is already on by 0102 Apr 12, S9+15/25 into Maryland SDR.

Note: The Russia item about MW in the FE, correct frequency is 765, not 756 as in Rus`-DX I was quoting.

Confirmed Saturday April 11 at 1440 the 1430 on SW Radio Gold, Germany, 6160.001+, S8 into UTwente. (3975 not on before 1500)

Also confirmed Saturday April 11 at 1530 on WRMI 9955, S9+30/40 into Georgia SDR.

Also confirmed Saturday April 11 at 1600 on WRN via WRMI 7730, S8/S9, and on WRMI 9395, S9+20/30, both into Georgia SDR.

Also confirmed Saturday April 11 at 1940 the 1930 on WRN via WRMI 9395, S9+20/30 into Georgia SDR. And not confirmed on WRMI (9955) webcast only.

Also confirmed Saturday April 11 at 1943 the 1930 on SW Radio Gold, Germany, 6160.001+, S9+10 and 3975.002-, S9/+5 and noisier, both into UTwente.

Also confirmed Saturday April 11 until 2003.2 UT on WA0RCR, 1860 AM, Wentzville MO, so started circa 1934, JBA in daytime noise into Glen Carbon IL remote; House Springs MO even closer to WA0RCR was also getting 1860 JBA but I tuned in too early, and it had cut me off before WOR with a 10-minutes-per-day limit!

Also confirmed Saturday April 11 at 2005 the 2000 on WRN Europe stream.

Also confirmed Saturday April 11 at 2113 the 2100 on WRMI 9395, S9+25/40 into Georgia SDR

Also confirmed Saturday April 11 at 2230 on WRMI 15770, S9+20 and 17790 S9 direct; into Maryland SDR, 15770 S9+10/15, but 17790 JBA; into Brasila SDR, 17790 S8/9+10. BTW the once-popular `Pardinho` remote in Brasil now requires a password for any access. Next:

** U S A [and non]. WORLD OF RADIO 2342 monitoring: as in last report, I thought WTWW was going to play it again UT Sunday at 0300 on 5085; but instead `T2P weekend edition` started at 0300 Apr 12, with BB talking about his medical treatments; since it`s an hour long, maybe WOR at 0400? But recheck at 0341, 5085 is already off the air. Anyhow its modulation was clear, while the other WTWW, 5920 with TOMBS had a horrible hum roar.

WOR confirmed UT Sunday April 12 at 0358 about 8 minutes into so the 0315v started about 0350 on WA0RCR, 1860 AM, MO, S7/9 into N9AZZ IL remote.

Also confirmed Sunday April 12 at 0630 on WRMIs: 5850, S9+45/50 direct; 7780 S9; and 7730 JBA S6 which had not been confirmed before.

Also confirmed Sunday April 12 at 1900 on IRRS SW via AM Italia 1322.996-, S9 into UTwente, right after 7290 s/off announcement. Next:

** U S A. 5130 -77 Hz = 5129.923, Apr 10 at 2355, WBCQ has come on with `The Planet` ID & IS loop, into NH SDR, calibration corrected with WWV. At 2356, 6160.006 weak deadair S6/S7 something else? 7490 has been with FKB, but at 0000 April 11 //5130 ID, and `WTO` theme, Alterjexions ``heart`` and ``heart & soul of electronic media, good ole radio...`` so it`s a replay of last week`s `AAAWWW`, q.v.; never mind (Glenn Hauser, OK, WOR)

** U S A. 9955, April 9 at 1443, this WRMI is OFF; supposed to run until 1600*; 9395 is on but JBM S7; 15770 is on with SMTV S7 adequate modulation. 7730 at 1453, JBA carrier direct; and at 1606, JBA S5/S7 into Miramar FL SDR, groundwave (Glenn Hauser, OK, WOR)

** U S A. 7780, UT Tue Apr 14 at 0305, WRMI: for past several weeks there has been an unlisted program immediately preceding WORLD OF RADIO until 0330 UT Tuesdays when it is interrupted for WOR playback. Usually in Spanish. I meant to start listening at 0300 in order to identify it, since the System D and F program schedules do not account for this semihour, 0300-0330! I am 5 minutes late but I do notice that it`s // 5850. These do not match at all the Transmitter skeds: 5850 on red System F from Slovakia to Prague at 0330.

But 7780 supposedly switches from D to F at 0330. Today I am hearing a lengthy discussion about China between someone with an American accent and one with a Chinese accent; they are obviously anti-ChiCom. There is a brief clip in Chinese at 0322, back to English, but never any program or station ID. Once WOR starts at 0330 on 7780, I keep listening to 5850, which finally IDs at 0337 as FREEDOM SYNERGY RADIO, and at the odd time of 0338 switches to Spanish. The words Freedom and Synergy do not appear anywhere on current WRMI program skedgrid, nor can I find them by searching or visual inspexion of the Programming page!

FSR began Mon May 25, 2020 as in:
https://www.hard-core-dx.com/article.php?story=20200526141501127&mode=print

And altho not regularly heard for the last few years, I did mention it last in *2025*:

``CUBA. 5800, Jan 23 at 0724, lite pulse jamming against nothing, long after WRMI is off this frequency. Presumably prompted by `Freedom Synergy Radio` which is axually pro-Taiwan, anti-ChiCom, had been scheduled at 0300-0400* on WRMI-10 5800, from System B, and maybe still is. Shown only on the freq sked block, nowhere in the program skeds. System B otherwise means 9955, where it`s not scheduled either. IIRC, R. República was also on 5800 for a while, forever damaging it, as once jammed, a frequency forever subject to be torn up by the incompetent DentroCuban Jamming Command`` -- Well, we now know anyway, Cuban jamming has not been forever (Glenn Hauser, OK, WOR)

** U S A. 9930, Apr 13 at 2226, 2308, and Apr 14 at 0017 chex, TOMBS service of WTWW is OFF. Nor of course on night frequecy 5920 yet, nor by 0106. Wonder what`s wrong now? IIRC, other WTWW was on 5085 for a while early UT Mon Apr 13, but not by 0300 (Glenn Hauser, OK, WOR)

** U S A. 9930, Apr 14 at 1402, missing yesterday but WTWW TOMBS back on air today, huge S9+45 signal (Glenn Hauser, OK, WOR)

** U S A. 5920, Apr 15 at 0653, WTWW huge S9+55 direct but with big humroar (Glenn Hauser, OK, WOR)

** U S A. 12160, Apr 15 before and after 1900, NO signal from this WWCR-2, scheduled 15-20 UT, while 13845 is weak, but neighbor WTWW 9930 is blasting. No 12160 into PEI remote either. At 2123 the next WWCR-2 channel, 9350 is also off but some ~9351 RTTY is audible. 9350 scheduled 20-24 still off at 2312. Nor next 5935 after 2400. See also UNID 9350-9355-9360 (Glenn Hauser, OK, WOR)

** U S A. 15150, April 9 at 1445 no signal from WMLK, nor 17525. Per HFCC, 15150 is scheduled at 12-17 UT and 17525 at 1730-2230, except Sat (Glenn Hauser, OK, WOR)

** U S A. 968.06, April 9 at 0646, JBA carrier, presumed still KVWM Show Low AZ (Glenn Hauser, OK, WORLD OF RADIO 2342)

** U S A. 1530, Apr 13 at 0508, ID mentioning Zacatecas on 104.9 & 95.1, overcoming WCKY on my N/S antenna. That should be easy to look

up later: NOT. No such XE on 1530, rather it`s still the TX spoiler, KZNX Creedmoor near Austin, U7! 10000/220 watts, as listed with those two FM frequencies in NRC AM Log, and not near its El Paso listed physical address! (Glenn Hauser, OK, WOR)

** U S A. 1590, Apr 13 at 0443 UT, Mexmx dominating on N/S antenna. I stick with it hoping for a ToH ID; already at 0446 a ``full`` ID but can`t copy anything more useful than ``Estás escuchando ... 101.`` algo, but there are one or two other SS QRMing. At 0500 no luck either during an ID in Spanglish. I have been looking out for WCGO Evanston IL, ``Ambiente Clásico`` which I used to get but presumably degraded to 24 watts. Among USSS listings in NRC AM Log, the one in TX, KDAE Sinton would be likeliest, U4 1000/500, SS:REL in R. Libertad group; and group info on page 286 of NRC AM Log shows also a 101.7, K269GN! which is in Corpus Christi, and Sinton is just NW of CC. As for Mexico, FWIW no NA around 0500, and IRCA lists two possibilities, XEVOZ in CDMX and XECCBB Guanajuato (Glenn Hauser, OK, WOR)

** U S A. 1600 kHz, Apr 13 at 0502 UT, Vietnamese, or some other SEAs language? Presumably KRVA Cockrell Hill [The Metroplex] TX: you won`t find the true callsign anywhere on the https://vva1600.com/ website, rather VVA1600 = Voice of Vietnamese Americans. Used to hear it more at least before LSS when it would QRM KUSHing; now is 25000/930 watts. Both day and night patterns have a small bulge thisaway NNW. Site is at the SE corner of Dallas, thus the bulge (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1349.85 approx., Apr 12 at 0626 UT, JBA carrier hetting 1350s. Probably domestic, but lowest below 1350 in mwoffsets is from 20+ years ago: ``1349,9 CLM Radio Armonía (Cali) 2005-06-13``, 5 kW HJEN still in 2026 WRTH; and I found another off-frequency report of the 1350 station in Bahia, Brasil, 50 kW Súper Rádio Cristal, ZYH521, also still in WRTH tho ZY AM`s are flocking to FM (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1627 & 1653 approx., Apr 15 at 0637 UT, weak IBOC noise peaks, never heard around here before, and certainly not from my local KZLS 1640. NRC AM Log does not put an I by any of the few other 1640s; only KBJA UT and WJSP WI would be likely with WTNI MS gone; rather than the CA or OR stations. Is there a reliable up-to-date IBOC roster any more? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1650, Apr 13 at 0501 UT, tone mixing with other stations. Always suspect KSVE El Paso which used to tonify all-night. No tone before 0500 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4885, Apr 13 0428, JBA carrier where normally there is nothing. Dare we hope R. Clube do Pará reactivated from Brasil, once the best S American signal on 60m? NO! Despite still listed only in Aoki as if it exist. Europirates are showing up anywhere on 60m now (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, Apr 13 at 0429, JBA carrier, as often noted before, no clues, but now it`s wavering. No broadcasters known on 4975 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9100, Apr 12 at 0635, open carrier with clix at the rate of 32 per minute; also JBA detectable out to plus/minus 15 kHz, 9085/9115. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9100, Apr 13 at 0413, instead of open carrier last time, now some utenoise, but still accompanied by JBA clix and this time at the rate of every 2 seconds, and JBA out to plus/minus 15 kHz = 9085/9115. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9100, Apr 14 at 1412, only a JBA carrier today, but

still accompanied by JBA clix every two seconds out to 9085/9115, noise level permitting. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9350-9355-9360, Apr 15 at 2221, sounds like DRM noise in the absence of WWCR on 9350, q.v. Nothing at all listed on 9355, AM or DRM; nor any DRM nearby (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9490, Apr 13 at 0412, S8/S9 open carrier. Only thing listed now is TIBET, but more likely I think is Issoudun, France, failing to turn off a couple hours after R. República - Aha, Tony Pavick, BC, just reported:
``I was surprised to hear R República here in BC with reasonably good signal last nite at 0350 to 0400 sign-off:
20260413_0350_UT_9490_khz_France_Issoudun_R_Republica.mp4
Tony Pavick`` -- what is really underneath, but went off at 0400:
https://player.mediadelivery.net/play/502138/3e1056ff-56b8-4e75-b6b1-3945f89bf289
(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9560-9565-9570, Apr 13 at 0409, DRM noise S9+10/20 direct. Nothing listed anywhere anytime on 9565 DRM nor AM in HFCC, EiBi, Aoki, nor
https://www.drmrx.org/drm-broadcasts-shortwave-by-frequency/
Maybe FRANCE which does a lot of DRM testing (Glenn Hauser, OK, WOR)
